Book recommended by Sue Tucker

**Dementia: Living in the Memories of God**

by John Swinton, Publisher: SCM Press

ISBN-10: 0334046726

ISBN-13: 978-0334046721

Grounded in deep pastoral concern and theological integrity, Dementia: living in the memories of God, is essential reading for anyone wishing to develop an understanding of dementia from a Christian perspective. John Swinton provides an important and timely re-description of the story of dementia which offers hope based on experience and insight. The reader is encouraged to recognise the darkness of dementia as only part of the story in which the person continues to be held in relationship by God who does not forget. A practical theology for dementia, and the continued importance of visiting, is worked out in the new story he offers. (Margaret Goodall)
